

Website: <http://performhealth.com.au/Product/info/OPP-1064S>

* Provides support for lower back injuries. * Maximum support to mid and lower back without restricting normal movement. * Three flexible stays on the back provide extra support. * Hook and loop closure allows for a wide range of adjustable compression. * Two extra straps provide more support and stability. * 10" width back shape provides extra support. How to wear: * Wrap support around the waist and be sure three stays are positioned on the back. * Adjust the support to desired compression and secure hook and loop closure to the front of support. * Pull the elastic reinforcement straps and secure for extra compression. Application: * Mild muscle strain and ligament sprain * Mild low back pain * Back muscle fatigue
